

Components

Attach one end to base with clips

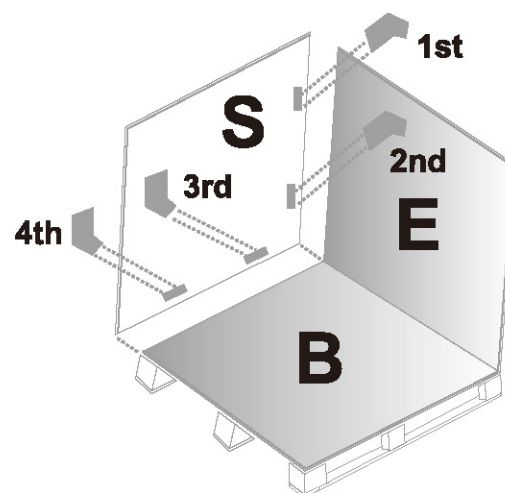

Attach the clips so that the long legs reach over the rebated edges of the base, lids and ends

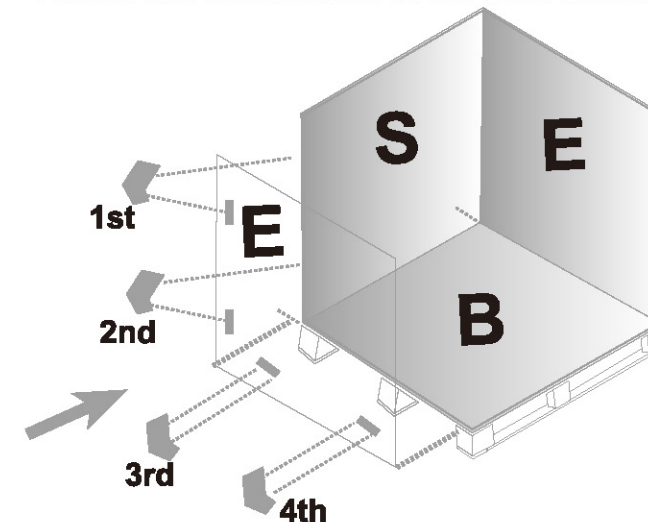

Push the knee of the clip until it snaps into the slot

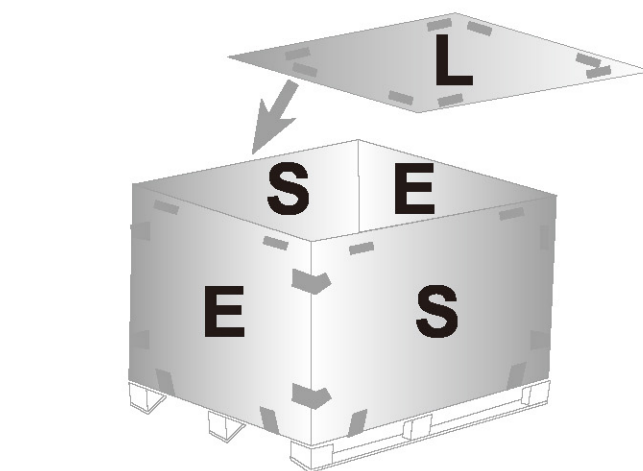

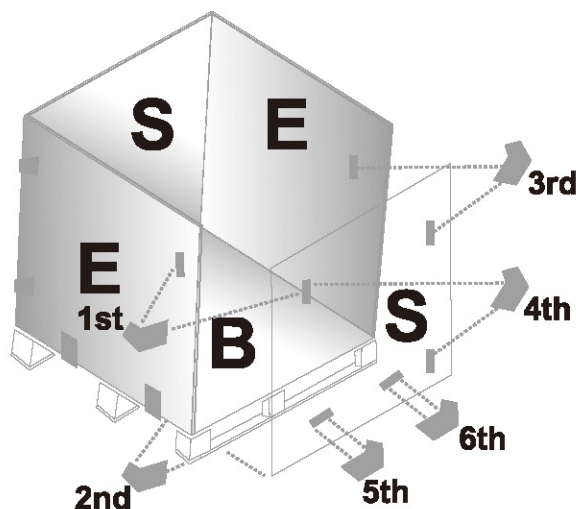

Attach the first side to the end and base

Attach the second end to the side and base

Attach the second side to both ends and the base

Fit lid on top and attach with remaining clips

To remove clip, insert clip tool into raised pocket on the long leg of clip and rotate tool towards edge of box
